About TeluguCineBuZZ
TeluguCineBuZZ is a movie information website created for Telugu cinema fans.
Explore popular movies and discover new favourites.
Copyright 2026 TeluguCineBuZZ | Telugu Cinema Website

1.4 Explanation

1. The above website is written using clean HTML5 structure and custom CSS styling.
2. No JavaScript is used for the rendering or styling of the page.
3. The navigation bar allows smooth scrolling to different sections including Home, Movies, and About.
4. The movie collection presents grid cards displaying poster thumbnails, title, release year, genre, and user ratings.

2 Sanchari Travel Portal

Choose Destination ∨

dd-mm-yyyy [x]

2.4 Explanation

1. The website features clean semantic layout sections including header navigation, call-to-action hero banner, grid destination showcase, formatted pricing table, and interactive form controls.
2. CSS Flexbox is utilized for layout alignment of destinations and inquiry input forms.
3. Pricing details are tabularized with contrasting table headers and bordered layout cells.

4	FireStorm	Phoenix	1800

Latest Gaming News

3.4 Explanation

1. The website is built using a dark theme aesthetic specifically targeted at gaming and esports platforms.
2. Cyan highlighted borders and headers are used to provide contrast against dark blue card containers.
3. Multiple dynamic sections including Tournaments, Teams, Players, Leaderboards, and News are structured cleanly.
4. Standard tabular structures display competition rewards and ranking points across distinct esports titles.

4 Case Studies Summary

1. **TeluguCineBuZZ Movie Portal**
    - **Objective:** To build a media catalog website featuring Telugu movies, genres, ratings, and plot summaries.
    - **Key Features:** Hero visual block, Search bar, Category filter chips, Movie poster cards grid, About section.
2. **Sanchari Travel Portal**
    - **Objective:** To develop a responsive travel agency website offering destination packages and trip inquiry forms.
    - **Key Features:** Header navigation, Destination gallery, Pricing breakdown table, Contact inquiry form.
3. **Nexus Gaming Portal**
    - **Objective:** To construct an esports hub showcasing popular games, upcoming tournaments, team rosters, and leaderboards.
    - **Key Features:** Dark gaming theme, Cyan highlighted borders, Tournament schedules, Player leaderboards table.

5 Technologies Used

- **HTML5:** Provides structural foundation, page sections, content semantics, tables, forms, and input elements across all three case studies.
- **CSS3:** Styling, custom color palettes, dark/light theme properties, layout management (Flexbox/-Grid), border styling, typography, and response alignment.

6 Conclusion

All of the above outputs represent comprehensive test cases created under the **Activity Based Learning** module of the Web Development curriculum. Each project demonstrates essential front-end concepts such as structure building, aesthetic layout design, tabular data presentation, dynamic flex-wrapping, and user input interface creation.
